Myngath: Some Recollections of a Wyrdful and Extremist Life

ISBN 9781484110744

Myatt - who has translated works by Sophocles, Sappho, Aeschylus, and Homer - has been described as "a British iconoclast who has lived a somewhat itinerant life"; as "emblematic of the modern syncretism of radical ideologies"; as "an example of the axis between right-wing extremists and Islamists"; as a "theoretician of terror"; and as "the leading hardline Nazi intellectual in Britain since the 1960s".

'Myngath' provides an overview of his strange and diverse life. A childhood in Africa and the Far East; his often violent political activism; his involvement with paramilitary and criminal activities; his time as a Catholic monk; his conversion to Islam, and the personal tragedy that, via pathei-mathos, led to his rejection of all extremism and to him developing a mystical philosophy centered on empathy and the personal virtues of compassion, tolerance, and humility.

Understanding and Rejecting Extremism: A Very Strange Peregrination

ISBN 9781484854266

Part One: Towards Understanding Extremism - Some Notes From Personal Experience.

Part Two: A Learning From Grief.

Part Three: A Rejection of Extremism Perhaps Explained.

The first part contains some reflexions on, and some conclusions concerning, forty years as a practical extremist and forty years of practical experience of extremism and of other extremists. The conclusions regarding extremism resulted from some years of moral, personal, and philosophical questioning and reflexion; a questioning whose genesis was a personal tragedy in 2006, and which questioning led a few years later to a rejection all forms of extremism to the development of a philosophy of pathei-mathos, based on the virtues of empathy, compassion, and humility.

Part two consists of transcriptions of some handwritten letters sent to a friend following that tragedy in 2006. Since such personal correspondence is usually far more revealing - of personal views, motivations, and feelings - than some essay or other in which one pontificates about this or that, some readers may find this part more interesting and insightful than either part one or part three.

The third part consists of personal replies sent to individuals between 2011 and 2012 and which replies may serve to place into perspective that rejection of all forms of extremism as well as elucidate the development of the philosophy of pathei-mathos.

Extremism And Reformation

ISBN 9781691707423

The genesis of this compilation of essays was, as mentioned in the included essay *A Premature Grieving*, the publication in 2019, by political advocacy group, of various unsubstantiated allegations and disinformation about me and the subsequent repetition of such allegations and disinformation by some mainstream newspapers and media outlets.

The unsubstantiated allegations and the disinformation concerned my supposed continuing involvement with extremism, specifically neo-nazism; it being apparent that neither the political advocacy group nor the newspapers and media which repeated the allegations and the disinformation had bothered to read my extensive post-2011 writings about rejecting extremism and about seeking expiation for my decades-long extremist past.

This compilation of essays is my reply to those unsubstantiated allegations and disinformation.

One Viator Among So Many: A Collection of Some Recent Essays

ISBN 9798312913026

A selection of essays from David Myatt (2014)

"I consider that I have, in the past two years (2012-2014), written and made available sufficient about myself; about my past; about my rejection of extremism; about the somewhat mystical philosophy of pathei-mathos (the weltanschauung) I developed as a result of my pathei-mathos; about my errors, selfishness, and hubris, and about the need to live reclusively partly in expiation for those errors and that selfishness and hubris.

In my fallible opinion, the following compilation of some recent writings of mine (in addition to those writings mentioned in the Appendix) may be of some use to those who, for whatever reason or reasons, are curious about me and my past, or who have some professional interest in researching or opining about my past, my character, and my beliefs."

Tu Es Diaboli Ianua Christianity, The Johannine Weltanschauung, And Presencing The Numinous

ISBN 9781982010935

Since the religion termed Christianity has, for over six centuries, been influential in respect of the ethos and spirituality of the culture of the West - often to the extent of having been described as manifesting

that ethos and that spirituality - one of the metaphysical questions I have sought to answer over the past forty years is whether that religion is, given our thousands of years old human culture of pathei-mathos, a suitable presencing of the numinous. If it is not, then could that religion be reformed, by developing a Johannine Weltanschauung given that the Gospel According to John arguably presents a somewhat different perspective on the life and teachings of Jesus of Nazareth than the three other synoptic Gospels. Would such a reformation be a suitable presencing of the numinous, and if not, then what non-Christian alternatives - such as a paganus metaphysics - exist, and what is the foundation of such an alternative? This essay presents my answers to such questions and thus compliments my book *Classical Paganism And The Christian Ethos*.

Classical Paganism And The Christian Ethos

ISBN 9781979599023

A study in the difference between Christianity and the paganism of Ancient Greece and Rome, evident as that paganism is in the writings of Homer, Aeschylus, Sophocles, Cicero and many other classical authors. A study which includes developing that paganism in a metaphysical way, beyond the deities of classical mythos, thus making such paganism relevant to the modern Western world. A modern development which involves an analysis of the texts of the Corpus Hermeticum.
